Harry Potter ASMR

Do you want to create a peaceful ambience in your classroom?

ASMR Rooms on YouTube offers immersive soundscapes that can help promote a calm classroom environment.

MO LEAP Blocks

Whether you are preparing for end-of-year testing or want to try short, meaningful learning experiences, you will want to explore this resource!

In addition to being engaging, these are ready-to-use lessons.

Esti-Mysteries

Spark curiosity and deepen number sense with Steve Wybourne's Esti-Mysteries—engaging, clue-based estimation challenges that get students thinking, predicting, and revising their reasoning in real time.

These ready-to-use visuals make math interactive and fun, while naturally building critical thinking skills. Perfect for warm-ups, brain breaks, or anytime you want to energize your math block.

Participation Spinner

This easy to implement strategy reduces anxiety while promoting collaboration as it creates more participation in the classroom. Hear from more students by using this simple idea.

Virtual New Teacher Summit

Learn from the best, connect with peers across the state, and leave confident, supported, and ready to tackle the rest of the school year after attending the Virtual New Teacher Summit from 5-8 p.m. on February 25. While it was originally designed for new teachers, all teachers are welcome to attend this free event.
